Guide to Work Requiring A Permit in Cypress Bend Condo I

In general, all construction, electrical, mechanical, or plumbing work performed inside of a condominium unit requires a permit.

The following work **does not require** a permit in Florida:

- Replacement of plumbing fixtures after the stop, **excluding water heaters.**
- Stopping of leaks
- Clear drain stoppages, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes, or fixtures.
- Connection of portable equipment such as portable heating appliances, portable ventilation equipment, portable cooling units, and portable evaporative coolers.
- Any steam, hot, or chilled water piping within any heating or cooling equipment regulated by the code.
- Replacement of any part within a single piece of equipment
- Air conditioning repair
- Carpet installation
- ceiling fan replacement using existing outlet box and wiring.
- Door replacement for any interior, residential door within the individual unit
- Heating unit repair
- Installation of floor/wall ceramic tile on **FIRST FLOOR UNITS.**
 - Second Floor Units and Above require permits.
- Painting/wallpaper
- Plumbing fixture replacement
- Residential appliance replacement
- Residential drywall repairs that are not fire-related and are for small areas that do not exceed two sheets of drywall.
- Replacement of existing countertops and sinks that are going back in the same location (bathroom vanity, kitchen cabinetry replacement in single family and condominiums does require a permit).
- Window repair

However, if your building project consists of constructing, enlarging, altering, repairing, moving, demolishing, or changing the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, gas, mechanical, or plumbing system, the installation of which is regulated by the technical codes, or to cause any such work to be done will need a permit.
